Exercises 01 -Lyrics

Fill in the missing gaps to complete the lyrics based on your Client/Server model knowledge.

To get a	, you need to ask.
	a and asking is the task.
The	does send it to a web server.
and it's really	not a big failure.
A user asks f	for some needed infos.
The	has it on its storage silos
The user wor	ks at the computer.
	the info's makes him cuter.
Transport for	http goes strictly over .
The	can be running on a raspberry pi.
	all piece of modern electronics
Brings enoug	ch power for streaming your Sonics.
And even in	the world of modern
The	is needed and shouts.
